

Advice for home with High Fire Loading

rbfrs.co.uk/your-safety

ROYAL BERKSHIRE
FIRE AND RESCUE SERVICE

By following our simple steps, you can make yourself and others safer inside your home

Fire loading refers to the amount of combustible materials there are in a space.

Homes with high fire loading have the potential for a fire to spread more rapidly.

Scan the QR code for fire safety advice.

In the event of a fire, get out if you can and **call 999**. If you would like some further support and assistance, you can contact RBFRS to arrange a Safe and Well Visit at safeandwell@rbfrs.co.uk
