

Multi Agency Risk Management (MARM) Framework – Appendix E -Positive Risk Management Tool

In order to make a MARM consideration request, local authority adult social care professionals must submit an Risk Assessment with the request, this risk assessment template can be used.

Individuals Details					
Name		Date of Birth		Address	
Referrer Details					

This tool **should** be completed as a record of:

- the risks identified during the risk assessment process
- the perceived level of risk of the individual, anyone advocating for them / acting in their Best Interests
- the perceived level of risk of any carer
- the perceived level of risk the professional leading on the assessment
- the desired outcomes agreed
- actions agreed to manage the risk, by whom and by when
- any risk identified which for which it has not been possible to agree outcomes or actions, details of why this is the case and what actions to be taken to resolve this
- timescales for review of the risk management plan
- if it has not been possible to possible to agree outcomes and/or actions to be taken for any of the risks please including details of why this is the case and what actions to be taken to resolve this.
-

Please list all specialist assessments which have been considered as part of the Risk Assessment Process:

Assessment	Undertaken by:

Key: H = High Risk; M = Medium Risk; L = Low Risk; U = Unable to ascertain

Identified Risk	Risk Level (Individual) Referrer to fill out H / M / L / U	Risk Level (Professional) H / M / L	Risk Level (Carer) Referrer to fill out H / M / L	Outcome Agreed (or reason for non-agreement)	Action / Intervention Agreed– by whom this will be undertaken and by when
